

CMM Italy

# Stamped axial (thrust) ball bearings

Axial bearing, forged steel. Cheap thanks to a production process very fast. Suitable to withstand high loads at low rpm. The hardening of the sheet, combined with the heat treatment of the parts in contact with the balls and the galvanic protection of components make it extremely powerful being able to express excellent mechanical properties. On request the certificate of the product is available.

**APPLICATIONS:**

- INDUSTRIAL DOORS
- DOOR AND WINDOW HINGES
- FIRE DOOR HINGES
- SWIVEL CHAIRS
- TRIPODS
- REVOLVING DISPLAY BOARDS

**SURFACE TREATMENT:** WHITE GALVANIZED; GALVANIZED YELLOW; GALVANIZED BLACK; GILDED; NICKEL COATED; BRONZED.
